**Backend:** Node.js, Express.js, REST APIs, Prisma ORM, WebSocket.io

**Databases:** MySQL, MongoDB

**Tools & Platforms:** Git, GitHub, Vercel, Render, CapRover, Cloudflare, Postman, WordPress

## Professional Experience

**Full Stack Developer Intern**                                                      *Hyderabad, Telangana*
*Ebani Tech Pvt. Ltd*                                                      *April 2025 – September 2025*

Technology division of Ebani Advertising, delivering innovative AdTech, CRM, and digital branding platforms across India.

- Developed responsive CMS dashboards and ad-management tools using **Next.js, ShadCN, and Tailwind CSS**
- Built secure REST APIs with **Node.js** and managed data through **MySQL** and **MongoDB** using **Prisma ORM**
- Contributed to Reachtopia Content Management Platform, handling various modules from development to testing and validation
- Managed production deployments using **Vercel** and **Render**, with QA deployments via **CapRover**
- Conducted comprehensive testing and bug fixing across the application stack to ensure platform stability

**Full Stack Developer Intern**                                                      *Kochi, Kerala (Remote)*
*BSH Technologies™*                                                      *Aug 2024 – Jan 2025*

Service provider specializing in website development, focused on building scalable business systems and dynamic web applications.

- Engineered full-stack applications and internal tools using modern **React.js, Next.js, and Node.js** ecosystem
- Developed robust back-end services and RESTful APIs with **Node.js, Express.js, and Prisma** for seamless data management
- Built and optimized front-end architectures using **React.js** with both **Next.js** and **Vite** for enhanced performance
- Managed database operations with **MongoDB** and **Prisma ORM**, ensuring efficient data modeling and querying
- Streamlined deployment process by managing production builds and CI/CD pipelines on **Vercel**

## Projects

**KPCC – Kerala Pradesh Congress Committee**                                          *Live Website* ↗

- Developed the official website delivering high-performance and responsive web presence
- Built main public-facing website using **React.js (Vite)** and **Bootstrap CSS** for styling

- Engineered separate, secure Admin Panel using **Next.js** for content management and site updates
- **Tech Stack:** React.js (Vite), Next.js, Bootstrap CSS, Vercel, Git

### Trimx – Men's Salon Brand Website *Live Website* ↗

- Rebuilt multi-branch website from WordPress to Next.js with performance-first approach
- Enhanced SEO and engagement by creating fast, responsive layouts
- **Tech Stack:** Next.js, TypeScript, Prisma, MongoDB, Vercel

### Ebani Advertising – Corporate Rebranding *Live Website* ↗

- Migrated legacy PHP site to **Next.js** and optimized UI for speed and accessibility
- Deployed using Vercel and Cloudflare with improved scalability
- **Tech Stack:** Next.js, Tailwind CSS, Strapi, ShadCN, Vercel, Cloudflare

### Reachtopia – Content Management Platform

- Core contributor to comprehensive Content Management Platform for managing digital advertising campaigns across smart mall displays
- Owned end-to-end quality assurance for platform features including user onboarding, media asset uploads, and admin approval workflows
- Executed thorough functional testing to identify, document, and troubleshoot bugs across entire application stack
- Collaborated with development team to diagnose and fix issues, ensuring robust user experience
- Validated integrity of REST APIs and data flow for user authentication, media management, and campaign scheduling

## Education

### B.Tech in Computer Science and Engineering *Sept 2020 – July 2024*
*Rameshwaram Institute of Technology and Management*

- Graduated with a CGPA of 8.12/10
- Self-taught full-stack development through hands-on project building and continuous learning
- Applied academic concepts to real-world projects, building web applications from scratch using modern technologies
- Developed expertise in full-stack technologies through practical implementation in personal and academic projects
- Relevant Coursework: Data Structures and Algorithms, Database Systems, Computer Networks, Distributed Computing, Software Engineering, Artificial Intelligence
